## BrainsWay Reports Third Quarter 2019 Financial Results and Operational Highlights

**Third quarter revenues were \$5.9 million, up 38% over the same quarter in the prior year**

JERUSALEM, Israel and HACKENSACK, N.J., Nov. 25, 2019 (GLOBE NEWSWIRE) -- BrainsWay Ltd. (NASDAQ & TASE: BWAY) (“BrainsWay” or the “Company”), a global leader in the advanced non-invasive treatment of brain disorders, today reported financial results for the quarter ended September 30, 2019, and provided an operational update.

“We are pleased with our solid performance in the third quarter of this year,” said Dr. David Zacut, Chairman, Interim CEO and a founder of BrainsWay. “These positive results reflect the continued increase in demand for our Deep Transcranial Magnetic Stimulation system (Deep TMS) and the sustained momentum of our business during the Company’s strategic transition to U.S.-based leadership, which began during the third quarter with the relocation of our Chief Financial Officer and Chief Operations Officer, Hadar Levy, to New Jersey. Our third quarter performance is further notable in light of the seasonality typically associated with this quarter. We look forward to continuing to implement our growth strategy through our focus on commercial excellence and scientific advancement.”

### Financial Results for the Third Quarter Ended September 30, 2019

- Quarterly record revenue of \$5.9 million, an increase of 38% over the third quarter of 2018.
- Recurring revenues of \$3.4 million, an increase of 40% over the third quarter of 2018.
- Since September 30, 2018, BrainsWay’s installed base has increased by 138, reaching an all-time high of 488 Deep TMS systems and reflecting a quarter-over-quarter increase of 32 systems.
- As of September 30, 2019, the Company has shipped 132 OCD coils as add-on helmets to certain of BrainsWay’s new and existing systems since marketing clearance was obtained in August 2018.
- Gross margin for the third quarter of 2019 was 81%, compared to 78% during the third quarter of 2018.
- Research and development (R&D) expenses for the quarter were \$1.9 million, compared to \$1.4 million in the same period in 2018. The increase was due to the continued development of BrainsWay’s proprietary Deep TMS technology, including completion of the smoking cessation study and conducting clinical trials for the treatment of post-traumatic stress disorder and other brain disorders.
- Sales and marketing expenses for the quarter were \$3.5 million, compared to \$2.0 million in the same period in 2018. The increase was primarily driven by an expansion of the sales force and enhanced marketing activities for both MDD and OCD.
- General and administrative expenses for the quarter were \$1.5 million, compared to \$0.9 million for the same period in 2018. The increase was due to additional costs associated with BrainsWay being a public company in the U.S. and an increase in an allowance for doubtful accounts.
- Operating expenses totaled \$7.0 million, compared to \$4.3 million in the third quarter of 2018. The increase was primarily driven by the enhanced sales and marketing activities, and the increase in R&D expenses, as well as the increased general and administrative costs incurred following BrainsWay’s IPO in the U.S.
- Operating loss for the quarter was \$2.2 million, compared to \$0.9 million for the same period in 2018. The increase in operating loss is in-line with the Company’s strategy to accelerate growth by increasing the size of the sales force and enhancing marketing activities globally.
- Net loss for the quarter was \$2.6 million, compared to \$1.5 million in the third quarter of 2018.
- The basic and diluted net loss per ordinary share for the third quarter of 2019 was \$0.12 per share, compared to \$0.09 per share in the third quarter of 2018.
- Cash used in operating activities for the three months ended September 30, 2019, was \$2.1 million, compared to \$0.3 million in the third quarter of 2018. During the third quarter of 2019, the Company increased its net trade receivables by \$0.6 million. Cash used in investing activities was \$1.2 million, compared to \$0.5 million in the third quarter of 2018. The increase was primarily driven by increased purchase of system components in order to meet the anticipated demand for the Company’s Deep TMS systems.

### Financial Position

As of September 30, 2019, the Company had cash and short-term investments of approximately \$23.9 million, compared to \$27.6 million at June 30, 2019. BrainsWay has no debt (other than certain liabilities with respect to R&D grants).

### Recent Corporate Highlights

- Expanded commercialization efforts to increase adoption of Deep TMS, including hiring additional sales representatives in the U.S.
- Completed enrollment necessary for interim analysis in multicenter post-traumatic stress disorder study; interim results anticipated by year-end 2019.
- Completed planned protocol for opioid abuse study; the Company expects to submit an investigational new device application with the FDA and, if approved, begin the trial in Q1 2020.

### Conference Call and Webcast

BrainsWay’s management will host a conference call on Monday, November 25, 2019, at 9:00 a.m. Eastern Time to discuss these results and answer questions.

**Monday, November 25, at 9:00 AM Eastern Time:**

Telephone conference

**About BrainsWay**

BrainsWay is a commercial stage medical device company focused on the development and sale of non-invasive neuromodulation products using the Company's proprietary Deep Transcranial Magnetic Stimulation (Deep TMS) technology for the treatment of major depressive disorder (MDD) and obsessive-compulsive disorder (OCD), for which BrainsWay received marketing authorization from the U.S. Food and Drug Administration (FDA) in 2013 (for MDD) and in August 2018 (for OCD). BrainsWay is currently conducting clinical trials of Deep TMS in other psychiatric, neurological and addiction disorders, including smoking cessation and post-traumatic stress disorder, and is planning trials for opioid addiction, fatigue in multiple sclerosis (MS) and post-stroke rehabilitation.

**Forward Looking Statements**

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements may be preceded by the words "intends," "may," "will," "plans," "expects," "anticipates," "projects," "predicts," "estimates," "aims," "believes," "hopes," "potential" or similar words. These forward-looking statements and their implications are based on the current expectations of the management of the Company only and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. In addition, historical results or conclusions from scientific research and clinical studies do not guarantee that future results would suggest similar conclusions or that historical results referred to herein would be interpreted similarly in light of additional research or otherwise. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: inadequacy of financial resources to meet future capital requirements; changes in technology and market requirements; delays or obstacles in launching and/or successfully completing planned studies and clinical trials; failure to obtain approvals by regulatory agencies in the Company's anticipated timeframe, or at all; inability to retain or attract key employees whose knowledge is essential to the development of Deep TMS products; unforeseen difficulties with Deep TMS products and processes, and/or inability to develop necessary enhancements; unexpected costs related to Deep TMS products; failure to obtain and maintain adequate protection of the Company's intellectual property, including intellectual property licensed to the Company; the potential for product liability; changes in legislation and applicable rules and regulations; unfavorable market perception and acceptance of Deep TMS technology; inadequate or delays in reimbursement from third-party payers, including insurance companies and Medicare; inability to commercialize Deep TMS, including internationally, by the Company or through third-party distributors; product development by competitors; inability to timely develop and introduce new technologies, products and applications, which could cause the actual results or performance of the Company to differ materially from those contemplated in such forward-looking statements.

Any forward-looking statement in this press release speaks only as of the date of this press release. The Company undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by any applicable securities laws. More detailed information about the risks and uncertainties affecting the Company is contained under the heading "Risk Factors" in the Company's filings with the U.S. Securities and Exchange Commission.
